

N4A – Aging and Disability Partnership

Improving Access to Health Care for People with Disabilities: A self-directed training for aging and disability organizations

DISABILITY RESOURCES*

[The National Disability Rights Network \(NDRN\)](#)

The National Disability Rights Network (NDRN) is the nonprofit membership organization for the federally mandated Protection and Advocacy (P&A) Systems and the Client Assistance Programs (CAP). Collectively, the P&A/CAP network is the largest provider of legally based advocacy services to people with disabilities in the United States.

[ADA National Network](#)

ADA National Network consists of 10 federally-funded regional centers and an ADA Knowledge Translation Center. The regional centers provide information, guidance and training on the Americans with Disabilities Act (ADA), tailored to meet the needs of business, government and individuals at local, regional and national levels.

[Job Accommodation Network \(JAN\)](#)

The Job Accommodation Network (JAN) is the leading source of free, expert, and confidential guidance on workplace accommodations and disability employment issues. Working toward practical solutions that benefit both employer and employee, JAN helps people with disabilities enhance their employability, and shows employers how to capitalize on the value and talent that people with disabilities add to the workplace.

[United States Access Board](#)

The United States Access Board is an independent federal agency that promotes equality for people with disabilities through leadership in accessible design and the development of accessibility guidelines and standards. Created in 1973 to ensure access to federally funded facilities, the Board is now a leading source of information on accessible design.

[ADA.gov](#)

ADA.gov, a website operated by the United States Department of Justice, provides information and technical assistance on the Americans with Disabilities Act.

*Prepared by the Disability Rights Education and Defense Fund (DREDF) for the Aging and Disability Partnership, established by the National Association of Area Agencies on Aging as a part of Administration for Community Living grant “Building the Business Capacity of Aging and Disability Community-Based Networks for Managed Long-Term Services and Supports.” (August 2014)

[ADA.gov -- 2010 ADA Standards for Accessible Design](#)

The Department of Justice has assembled an official online version of the 2010 ADA Standards for Accessible Design (2010 Standards) to bring together the information in one easy-to-access location.

ADA Information Line

The U.S. Department of Justice provides information about the Americans with Disabilities Act (ADA) through a toll-free ADA Information Line.
800 - 514 - 0301 (voice) 800 - 514 - 0383 (TTY)

[Administration for Community Living](#)

The Administration for Community Living (ACL) brought together the Administration on Aging, the Office on Disability and the Administration on Developmental Disabilities. ACL's main objectives are to reduce the fragmentation that currently exists in Federal programs addressing the community living service and support needs of both the aging and disability populations; enhance access to quality health care and long-term services and supports for all individuals; and promote consistency in community living policy across other areas of the Federal government.

[Federal Communications Commission \(FCC\)](#)

The Federal Communications Commission's goal is to make high-quality affordable communications services available to all Americans. The agency regulates the operation of telecommunications relay service, which allows people with communications disabilities to interact with voice phone users through a keyboard or other input method.

[Employment and Disability Benefits Initiative \(EDBI\): Disability Benefits 101](#)

Employment and Disability Benefits Initiative (EDBI): Disability Benefits 101, a project of the World Institute on Disability, provides information on health coverage, work, and benefits to youth and adults with disabilities. Through Disability Benefits Information Services, EDBI provides community outreach, training and web-based services, including one-on-one technical assistance at its website, www.DB101.org, in six states (Arizona, California, Michigan, Minnesota, Missouri and New Jersey).

[State Vocational Rehabilitation Agencies](#)

State Vocational Rehabilitation Agencies coordinate and provide counseling, evaluation, and job placement services for people with disabilities. The following link goes to the US Department of Education's, Education Organizations Resource Directory, which lists contact information for Vocational Rehabilitation Agencies in every state.

(http://wdcrobcolp01.ed.gov/Programs/EROD/org_list.cfm?category_cd=SVR)

State Assistive Technology Act Programs

State and Territory Assistive Technology Programs (AT Programs), authorized under Sec. 4 of the Assistive Technology Act of 1998, most recently reauthorized in 2004,

focus on improving the provision of AT through comprehensive, statewide programs that are consumer responsive. The goal of these programs is to increase access to and acquisition of AT through state level activities and state leadership activities. The AT Act provides formula grants, administered by the U.S. Department of Education Rehabilitation Services Administration, for an AT program in each state, as well as the District of Columbia, Puerto Rico, American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands.

State-Level Activities:

Device Demonstration Programs

Device demonstrations compare the features and benefits of a particular AT device or category of devices for an individual or small group of individuals (U.S. Department of Education, 2011). Device demonstrations allow individuals and groups to make informed choices about an AT device prior to acquiring it. Along with providing demonstrations, AT programs are required to provide comprehensive information about state and local assistive technology vendors, providers, and referral services.

Device Loan Programs

Device loan programs allow AT consumers and professionals who provide services to individuals with disabilities to borrow AT devices for use at home, school, and work, and in the community. These loans are short-term. Although the loan length varies by individual program policy, the average based on FY 2012 data was 42 calendar days. The purpose of a device loan may be to assist in decision making; to fill a gap while the consumer is waiting for device repair or funding; to provide an accommodation on a short-term basis; to provide self-education by a consumer or professional; and to provide training (DOE, 2011).

Device Reutilization Programs

Assistive technology reutilization involves transferring a used device from someone who no longer needs it to someone who does. Device reutilization falls into three activity categories. The first one, device exchange, usually occurs through an online forum where sellers and buyers can connect. Recycling, refurbishment, and repair (RRR) is the second category. In this type of program, devices are typically obtained from individuals who no longer need them, are refurbished, and then provided to new owners. Lastly, open-ended loan programs take previously used devices and loan them to individuals who can use them as long as they are needed.

State Financing

State financing activities assist individuals with disabilities to obtain AT devices and services. Funds authorized under the AT Act of 1998, as amended, cannot be used to purchase AT devices or services directly for consumers (DOE, 2011). There are three types of state financing activities that assist individuals who need AT: 1) financial loan programs that provide cash loans that consumers can then use to acquire AT, 2) other activities that result in AT acquisition, and 3) other activities that allow consumers to obtain assistive technology at a reduced cost.

See Appendix for a list of AT programs.

[American Association on Health and Disability \(AAHD\)](#)

The American Association on Health and Disability (AAHD) is a cross-disability national non-profit 501(c)(3) organization committed to promoting health and wellness initiatives for children and adults with disabilities.

[American Association of People with Disabilities \(AAPD\)](#)

The American Association of People with Disabilities is the nation's largest disability rights organization. AAPD promotes equal opportunity, economic power, independent living, and political participation for people with disabilities.

[Disability Rights and Education Defense Fund \(DREDF\)](#) The Disability Rights Education and Defense Fund (DREDF) is a leading national civil rights law and policy center that advances the civil and human rights of people with disabilities through legal advocacy, training, education, and public policy and legislative development.

[National Multiple Sclerosis Society \(NMSS\)](#)

The National MS Society helps each person address the challenges of living with MS through a 50-state network of chapters. The Society helps people affected by MS by funding cutting-edge research, driving change through advocacy, facilitating professional education, and providing programs and services that help people with MS and their families move their lives forward.

[The Arc](#)

The Arc promotes and protects the human rights of people with intellectual and developmental disabilities and actively supports their full inclusion and participation in the community throughout their lifetimes.

[United Spinal Association \(USA\)](#)

United Spinal Association's (USA) mission is to improve the quality of life of all people living with spinal cord injuries and disorders (SCI/D). USA believes that no person should be excluded from opportunity on the basis of her or his disability.

Other Disability Resources

[National Council on Independent Living \(NCIL\)](#)

National Council on Independent Living (NCIL), as a membership organization, advances independent living and the rights of people with disabilities through consumer-driven advocacy. NCIL represents thousands of organizations and individuals including: individuals with disabilities, Centers for Independent Living (CILs), Statewide Independent Living Councils (SILCs), and other organizations that advocate for the human and civil rights of people with disabilities throughout the United States.

United Cerebral Palsy (UCP)

United Cerebral Palsy (UCP) educates, advocates and provides support services to ensure a life without limits for people with a spectrum of disabilities. UCP works to advance the independence, productivity and full citizenship of people with disabilities through an affiliate network that has helped millions.

TASH

TASH (formerly The Association for Persons with Severe Handicaps), promotes the full inclusion and participation of children and adults with significant disabilities in every aspect of their community, and strives to eliminate the social injustices that diminish human rights.

Association of University Centers on Disability (AUCD)

Association of University Centers on Disability (AUCD) advances policies and practices that improve the health, education, social and economic well-being of people with developmental and other disabilities, their families, and their communities by supporting our members in research, education, health and service activities that achieve our vision.

National Federation of the Blind (NFB)

The National Federation of the Blind (NFB) is the oldest, largest, and most influential nationwide membership organization of blind people in the United States. Founded in 1940, the NFB advocates for the civil rights and equality of blind Americans, and develops innovative education, technology, and training programs to provide the blind and those who are losing vision with the tools they need to become independent and successful.

American Council of the Blind (ACB)

American Council of the Blind (ACB), founded in 1961, has been at the forefront of the creation of policies that have shaped the opportunities that are now available to people with disabilities. ACB strives to increase the independence, security, equality of opportunity, and quality of life, for all blind and visually-impaired people.

National Association of the Deaf (NAD)

National Association of the Deaf (NAD) is the nation's premier civil rights organization of, by and for deaf and hard of hearing individuals in the United States. NAD was shaped by deaf leaders who believed in the right of the American deaf community to use sign language, and to have its interests represented at the national level.

Autistic Self-Advocacy Network

The Autistic Self Advocacy Network is a 501(c)(3) nonprofit organization run by and for Autistic people. ASAN's supporters include Autistic adults and youth, cross-disability advocates, and non-autistic family members, professionals, educators and friends. ASAN was created to provide support and services to individuals on the autism

spectrum while working to educate communities and improve public perceptions of autism.

Bazelon Center for Mental Health Law

The Judge David L. Bazelon Center for Mental Health Law protects and advances the rights of adults and children who have mental disabilities so they can exercise their own life choices and have access to the resources that enable them to participate fully in their communities.

Consortium for Citizens with Disabilities (CCD)

Consortium for Citizens with Disabilities (CCD)

CCD is a coalition of approximately 100 national disability organizations working together to advocate for national public policy that ensures the self determination, independence, empowerment, integration and inclusion of children and adults with disabilities in all aspects of society.
